JUSTICE AND RIGHT

VOLUME XXXIV.

GRAYLING, MICHIGAN, OCTOBER 10, 1912.

OSCAR P. SCHUMANN, Publisher and Proprietor

NUMBER 41

Great Fall Showing of the Famous Hand Craft Clothes

This will be one of the most important showings of the world's best ready to wear Hand Tailored Clothes. Bernstein Bros. & Rosenthal, makers of New York City. Never was there such a line of clothing displayed in Grayling or Northern Michigan before, only in large cities by the best clothing houses. Don't have the small tailor charge you double for your suit; don't have somebody take your measure and send away for it, and when it gets back it won't fit. Here you see what you buy and you

Save from \$8.00 to \$15.00 on your suit

The HAND CRAFT CLOTHES are handmade, with well padded shoulders, shrunk canvas and lining so it won't shrink on your back when you go out. The fronts are warranted not to break or we will put in a new front. We press it free for six months.

Last Season's Overcoats are just as completely down and out as last season's snow; the weather was so cold that the overcoat was worn more than ever. So don't buy your new Overcoat before you see ours.

\$15.00 and \$18.00 Suits for the first time, \$9.99 \$18, \$20 and \$25 Hand Craft Clothes, \$14.95

Come and look over our Suits, take one and compare with others.

We also have a fine line of Children's, boys' and Young Men's Suits; a big line of Furnishings, Sweaters, Underwear, and Everything for Ladies, Men and Children. The best Shoes and Rubbers for Everybody.

Brenner's Cash Store.

The Store With Mail Order House Prices, Grayling, Michigan

DO YOU Want to save Money?

Then Here Goes!

We have now for several weeks been telling you about what we have got in the Grocery line, which is always composed of the highest quality at the lowest prices. I would now like to call your attention to our

Shoe Department

We have a very large stock of Men's, Boys', Ladies', Misses' and Childrens Shoes, Oxfords and Strap Sandals. We have a lot of Ladies' Shoes worth \$2.50 to \$3.00 which we will close out at

Less than Half Price

Respectfully Yours

Call or Phone 25

H. PETERSEN

Do You Buy Clothes Service?

IT'S A GOOD THING to know when you buy clothes that they're going to hold their shape, and wear fully as long as you expect. So it's worth a few dollars more on the original price of a suit to get the assurance of Clothes Service.

You can buy some clothes cheaper, but none that will cost you less by the year than those made as you dictate by

ROGERS, BLAKE & CO.

Tailors to Fashionable Men

I now are showing their new lines of about 400 samples, the richest selection it has ever been my privilege to handle, and they are priced no higher than most "Shelf" clothes. Yet the materials, the inner construction, and hand-needle work assures you of long service and lasting satisfaction.

We gladly show you a "money back, if not satisfied" basis.

A. E. HENDRICKSON.

The Merchant Tailor

CRAWFORD CO. COMMERCIAL ASSN.

HELD IMPORTANT MEETING SEPT. 30.

New Directors Elected To Fill Vacancy.

On Monday evening, September 30, the directors of the Crawford county Commercial association met and was presided over by President R. Hanson. The directors present were O. F. Barnes, Thos. D. Meddick, Perry Ostrander, Frank Owen, M. Hanson and J. L. Colten.

After reading and approving the minutes of last meeting the first matter brought up before the board was the resignation of O. F. Barnes, as vice president, as he couldn't hold the office of secretary and vice president at one time. T. W. Hanson was elected vice president and George Mahon to succeed him as director.

The removal to Detroit of E. J. Brennan, of Frederic township, also brought in his resignation as director and W. T. Lewis was elected to succeed him.

The numerous standing committees, as outlined in the constitution were duly appointed, and are as follows:

STANDING COMMITTEES.
Municipal and civic improvement: James J. Colten, chairman; Thos. D. Meddick, T. W. Hanson, L. B. Merrill, George Mahon.

County Settlement and Development: Geo. F. Owen, chairman; Marius Hanson, George Hartman, Perry Ostrander, Archie House, Thos. D. Meddick.

Good roads and rural improvements: Marius Hanson, chairman; T. B. Merrill, Wm. T. Lewis, Perry Ostrander, George Hartman, James J. Colten.

Industrial: Wm. T. Lewis, chairman; T. W. Hanson, Archie House, Marius Hanson, Thos. D. Meddick, Perry Ostrander.

Auditing: Thos. D. Meddick, chairman; James J. Colten, Geo. F. Owen.

Entertainment: T. W. Hanson, chairman; Marius Hanson, Thos. D. Meddick, Geo. F. Owen.

Publicity: O. F. Barnes, chairman; George Mahon, W. T. Lewis, George Hartman.

Membership: George Mahon, chairman; Marius Hanson, Thos. D. Meddick, Archie House, L. B. Merrill, Jas. J. Colten.

Special committee on National Guard Encampment: O. F. Barnes, chairman; T. W. Hanson, Marius Hanson, James J. Colten, H. A. Bauman.

The President is ex officio member of all committees.

As it is well known, Gov. Osborn, in accordance with a resolution of the legislature, appointed a committee to

investigate and determine a site for a permanent encampment of the M. N. G. in conjunction with U. S. regulars.

Members of the board of directors and the association have been working hard to secure this location at Portage lake in this county and we are pleased to state that our chances are excellent and there is very little doubt that next summer and the succeeding years will find the M. N. G. camped within our county. If this comes to us, much credit is due to President Hanson and Secretary Barnes, particularly, for their efforts to influence the commission toward selecting this county for a camp. Others of our citizens have also materially assisted.

A special committee on National Guard Encampment was appointed to have charge of all matters connected with the encampment and with instruction from the board to leave no stone unturned in assisting toward getting the camp here.

The commission was here Sept. 13 and 14 and inspected the property around Portage lake, which has been offered the state by Mr. R. Hanson for encampment purposes, and evidently they were favorably impressed. On Thursday, Oct. 17, the commission, accompanied by the State military board will again visit the property and make a more detailed investigation.

Numerous other matters were brought up at the meeting.

The Grange will serve a "billed dinner" at the G. A. R. hall on Saturday, Oct. 19. There will be in connection an agricultural exhibit. All who are interested in the future welfare of the county are requested to bring their exhibits of fruit, vegetables and flowers etc. Exhibitors can dispose of their exhibits as they wish; they will have an opportunity to sell them on the grounds. The Grange choir does not ask for nor expect any donations. Everybody come and we will use you right.

PERRY OSTRANDER, Commander.

Few, if any, medicines have met with uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. The remarkable cures of colic and diarrhoea which it has effected in almost every neighborhood has given it a wide reputation. For sale by all dealers.

SCHOOL NOTES.

Interesting News From Our Educational Institution.

Two more pupils have entered the second grade making an enrollment of 67. The room has seats for 64.

Irving Dupree, of the third grade, has returned to school after an absence of several weeks because of a broken toe.

Blanche Hodge is again able to be in school, although her arm is still in a cast.

The girls basket ball team netted three dollars and fifty cents at their candy sale Saturday. This money is

A Sermon for Today.

It is the world—or the soul—says Christ! But that appears vague to some men. What do you mean by the soul? they ask. Well I will put another word in place of soul and see if that will make it clear. Suppose we put the word character in its place. Suppose we say, What shall it profit a man though he gain the whole world and lose his character? Now you rise to the idea. You say there is nothing that can take the place of character; the poorest man will affirm that. Ask him if he will change places with the millionaire drunkard and debauchee—give up his good character, if that were possible—and see what he says. Why does he hesitate? Why does he

lose his soul? He knew that just by man's constitution there could be no possible profit. God is at the back of it. You have sprung from himself. Rev. DAVID ROSS, Nairn Scotland.

Notice.

County Clerks Office.

Crawford County, Mich.

To the Citizens of Crawford county. Please take notice that the following is the law, enacted in 1911 as amended in 1912, pertaining to carrying concealed weapons, as I am instructed to publish. Respectfully yours,

JOHN J. NUNDEKKE

County Clerk.

Sec. 1. It shall be unlawful for any person, except a hereinafter provided, to go armed with dirk, dagger, sword, pistol, revolver, attletto, "metallie" knuckles, pocket-billy, sandbag, skull-cracker, sling-shot, razor, hat pins over ten inches long, or other offensive and dangerous weapons or instruments concealed upon his person.

Sec. 2. It shall be unlawful to sell, to keep for sale, or offer for sale, loan or give away, any dirk, dagger, sword, stiletto, metallic knuckles, sand-bag or skull-cracker. The provision of this section shall not prevent the selling or keeping for sale of hunting and fishing knives.

Sec. 3. The prosecuting attorney and sheriff, in counties in which no regularly organized police force exists, and in counties where one or more regularly organized police forces exist, the prosecuting attorney, sheriff and chief of police of the city within which such license is sought, shall constitute a board, whose duty it shall be and who shall have power to grant licenses to carry a revolver, pistol or pocket-billy, and the said board shall meet on the first Monday of each month at the county seat for the purpose of hearing applications to carry a revolver, pistol or pocket-billy. A majority of said board shall constitute a quorum.

Sec. 4. It shall be the duty of said board to issue licenses to go armed with a revolver, pistol or pocket-billy to all peace officers and such other persons who in the judgement of said board should be permitted to go armed. Provided, That upon payment to said board the sum of ten dollars, mining companies, banks, trust companies, railroads and express companies may obtain a general license good for any of their employees actually engaged in guarding any property or the transportation of money or other valuables. Licenses issued to peace officers or to employees of railroad and express companies, shall permit such persons to go armed anywhere within the State while in discharge of their duties.

Sec. 5. The county clerk of each county shall act as secretary of said board and shall keep a correct list of all persons to whom licenses are issued, together with the number of such license, and the date each license [license] is revoked.

Sec. 6. Whenever any license is issued under this act to any person to carry any of the weapons mentioned herein by virtue of said person being a peace officer, the right of said person to carry any of said weapons shall cease when said person ceases to be such an officer. Said board shall have the power at any time in its discretion to revoke any license issued under and by virtue of this act.

Sec. 7. No license shall be granted to any person to go armed with any revolver, pistol or pocket-billy, unless the applicant shall first file with the board a written application, which application shall state:

First, the full name and residence and age of applicant.

Second, The place of business of the applicant.

Third, the nature of the applicant's business.

Fourth, The style, pattern, caliber, make and number of the weapon to be carried by the applicant.

Sec. 8. It shall be the duty of any person armed with a pistol, revolver, or pocket-billy, concealed upon his person to produce said license and upon the request of any peace officer, or other person in authority, the license provided for in this act, or a certified copy of the same, and failure to so produce such license or certified copy of the same, upon request shall be deemed prima facie evidence of a violation of the terms of this act.

Sec. 9. Any person who shall violate any of the provisions shall be deemed guilty of a felony, and upon conviction thereof shall be punished by a fine of not more than five hundred dollars, or by imprisonment in the State prison not more than two years, or by both such fine and imprisonment in the discretion of the court, and in addition, thereeto may be required to enter into a recognizance with sufficient surety in such sum as the court may order, not exceeding one thousand dollars, to keep the peace and be of good behavior for a period not exceeding one year. Provided, that in case of the first offense the court may, in its discretion, reduce the punishment to imprisonment in the county jail for a term of not more than three months, or a fine of not more than one hundred dollars.

THE SETTING SUN.

From the Chicago Inter-Ocean.

WHY ROOSEVELT IS LOSING GROUND.

Lifelong and loyal Republicans will not follow him out of the Republican party. The American people will not gratify the disappointed ambition of a man who, in a spirit of revenge, would wreck the Republican party because it refused him a presidential nomination.

The country does not want for president a man who eagerly grasps at every wild and radical theory merely to gain votes. Highest men will not support a candidate who instituted dishonest contests, who manipulated the country's disaster of a Democratic campaign from the Harvester and Steel trust directors.

Thousands of Republicans do not believe that men of unblemished character who disagree with Roosevelt are thieves and liars. Right-thinking people cannot count a candidate who violates his solemn pledges.

Republicans are beginning to realize that the only possible effect of his candidacy may be the election of Wilson, and they are not willing to bring upon the country the disaster of a Democratic administration merely to gratify one man's hatred or ambition.

The people will not Mexicanize the United States by electing to the presidency a man who declares that he sees no objection to any number of terms provided there is a recall. That is, it again made president he would expect to remain in that office until the people drove him out. What Washington would not take, what Grant could not get, Roosevelt shall not have.

used to defray the expense of a hall in which to practice. The girls have to have a game in the near future.

Minnie Love supplied in the fourth grade Tuesday during the absence of Miss Irving.

The greater part of the new physical apparatus has arrived. Beginning tomorrow the physics class will have laboratory work regularly each week.

The first grade is making a study of the poem "How the leaves came down" and also learning about the work of the leaves.

The first grade dramatized the story of the "Little Red Hen."

The pupils of the first grade are interested in the story of "Columbus as a boy."

Four children by the name of Billings entered school Tuesday. They have just moved here from Augres.

At the meeting of the Athletic association the following officers were elected: President, A. A. Ellsworth; vice president, Grace E. Jacobs; secretary, Wilda Failing; treasurer, Arthur McIntyre; board of control, Jean Dykes, Dorothy Judge, Arvilla Jones, Willa Lander, Harold Bradley.

The association has a membership of forty-three. As a membership is open to the Alumni it is hoped that many former graduates will take the advantage of this and aid the association.

A Log on the Track
of the fast express means serious trouble ahead if not removed, so does the loss of appetite. It means lack of vitality, loss of strength and nerve weakness. If appetite fails, take Electric Bitters quickly to overcome the canker by toning up the stomach and curing the indigestion. Michael Heshamer of Lincoln, Nebraska, had been sick over three years, but six bottles of Electric Bitters put him right on his feet. They gave pure blood, strong nerves, good digestion. Only 50 cents at A. M. Lewis and Co.

Silver Polish

If you—but know how much easier and better you could keep your silver clean by using

Three Months40

Entered as second-class matter at the Postoffice at Grayling, Mich., under the Act of Congress of March 3, 1879.

GRAYLING, THURSDAY, OCT. 10

The present presidential campaign seemingly has no effect on business. The foundation of the beginning of prosperity was started from the rural districts, the agricultural part of this country, by coming into their own, by receiving fair pay for their labor. This started the commercial wheels agoing with an upward tendency.

The agriculturist by being paid well for his labor received the buying capacity to such an extent that he could take care of the manufacturers' product as fast as it was created. The prosperity of the agriculturist is always the foundation of prosperity and the agriculturist is now living in the golden age, as far as his possessions in the nation are concerned.

He is better situated in the way of prosperity than he has been for the past forty years, and with a fair indication that prosperity is assured him for many years to come.

The public domain is practically exhausted, and population increasing every year, and the consuming power will practically take care of all the manufactured products produced in this country.

In place of exporting grain and meats, we will soon use up all we raise in our own country and results will be that the agricultural lines will be in better demand and increase in value every year.

Correspondence

Lovells Locals.

C. F. Underhill and wife are in Detroit on business.

W. S. Brown made a business trip to Grayling on Monday.

Miss Julia McCormick spent Sunday with friends in Grayling.

Miss Florence McCormick returned to her home in Detroit on Saturday.

Mrs. A. C. Ryburn arrived the early part of last week for a visit at the ranch.

C. Stillwagon and family returned on Wednesday last from their visit at West Branch.

Mrs. Wm. B. Hill has returned to her home at Detroit after an enjoyable summer spent at their cottage on Big Creek.

George VanLien, of Cadillac, with a party of land lookers, were in the village on Friday while looking lands in this vicinity.

Mrs. Victor Lafonde with Mrs. Adam Gierke, of Grayling, enjoyed Saturday forenoon at the Montmorency county fair at Lewiston.

Mr. and Mrs. A. M. Lewis, of Grayling, accompanied by Miss McPhee enjoyed an auto ride to this village Sunday afternoon.

Mrs. Charles Lee and daughter Vada returned on Saturday from a visit of several weeks with relatives at Coral and Bay City.

Mrs. Chas. Morrow entertained a few friends on Friday afternoon in honor of the 24th anniversary of the birth of her little daughter. A pleasant time is reported.

A number of lady and gentlemen friends, of Toledo, Ohio, who have spent the past week at the summer home of Mr. and Mrs. M. Linx at Crapo Lake returned home on Tuesday.

Sigsbee Items

Mrs. Arthur Wakely is on the sick list.

Rose Schieber made a trip to Bay City one day last week.

The farmers of Sigsbee will soon have their fall work done.

Mrs. Seely Wakely called on Mr. Arthur Wakely last Sunday.

Our school is progressing rapidly under the control of Lucy Musselman.

Mr. and Mrs. Wm. G. Feldhauser, of Maple Forest, visited their parents

Sunday.

Emma and Herbert Feldhauser and Lucy Musselman entertained a number of young people at their home Sunday evening.

A union Sunday school was organized at the Sigsbee school house, Sunday, October 6. The officers are as follows: Supt., Lucy Musselman; Asst. supt., Anna Hamilton; secretary, Thomas L. Wakeley; asst. secretary, Flora Stephan; treasurer, Emma Feldhauser. There were a large number present and we were well pleased to see so many turning out for a good cause. All are invited to join with us again.

"All remedies and doctors treatments failed till we tried Bucklin's Arnica Salve and cured him with one box. Cures burns, boils, skin eruptions, piles. 25 cents at A. M. Lewis and Co.

FINDS OPHIR LAND

Region That Supplied Solomon With Jewels.

Relics of an Ancient Civilization on the Edge of the Sahara, in West Africa, Are Brought Back by Dr. Leo Frobenius.

Berlin.—"Ophir," the land of gold and precious stones of Queen Sheba of King Solomon's time is believed to have been discovered by Dr. Leo Frobenius, the German explorer and scholar, who has returned to Berlin from a two years' exploration trip in West Africa. "Ophir," according to Doctor Frobenius, is, or rather, was, not located in Rhodesia in South Africa, where explorers heretofore have placed it, but in West Africa at the lower edge of the Sahara desert and in the vicinity of the Niger river. As proof of his belief that he has discovered the land from which King Solomon obtained the vast amount of gold and jewels for his palaces for himself and his 500 wives, the German explorer brought 300 boxes filled with ceramics, bronzes, articles of gold and silver, all of which he dug from ruins of cities whose history is lost in the mists of time.

Doctor Frobenius says his explorations started many years ago when the country and its people at one time enjoyed the very highest degree of civilization of its time. Bronzes, ceramics and utensils show that a high degree of art and skill abounded. The country, said Doctor Frobenius, is exceedingly rich in gold and other valuable minerals. The natives, tribes of negroes, have made no attempt to mine, said the explorer, because of their religion, which forbids it, but fond as they are of gold ornaments, have been deterred by the superstitious fear of "evil spirits" of ancient times, which they believe guard the treasures. Doctor Frobenius is now engaged in giving the details of his discoveries in a book which he is writing.

WELL KNOWN FIRE DOG DIES

Rex Was a Bulldog and a Hero of the Department—Is Buried With Honor.

New York.—Rex, fireman, life saver and as faithful to duty as any member of the department, was crushed to death recently while answering an alarm from the quarters of engine company No. 17.

Rex was only a dog and he was no pretty dog, either. He was a bull, with heavy jaws and legs which spoke strength and not beauty, but for four years he had guarded the firehouse night and day when he was not on duty at some place of sniffing about in search of fire.

There is a new horse on duty in No. 17 house. He is a big roan, fractious and difficult to handle. The alarm sounded. The roan took his place by his mate and dashed out of the house. The driver managed him with difficulty, but Rex ran along beside him, barking when time came to turn corners and endeavoring to show the new horse the way to answer an alarm.

Suddenly there came a corner to turn. The roan was slow in answering to the reins. Then he hurled his body to one side, dragging the engine after him, and the wheels of the heavy vehicle passed over the body of the faithful dog.

The firemen buried Rex with all the honors due a hero.

TO ABOLISH STRAIT-JACKETS

California Prison Warden Also Indicates Light Will Be Put Into the Cells.

Sacramento, Cal.—The strait-jacket will be abolished, though the unruly will be punished, announced James A. Johnston, the new warden of Folsom prison. His advent into office was greeted with a riotous demonstration by about 400 of the 1,200 convicts. When Warden Johnston was making an inspection of the prison yards he received word that "Jake" Oppenheimer, twice a murderer, wished to speak to him and stipulated that the conversation should be held in his cell, "with the door closed." Without hesitation the new warden entered the cell.

"Do you see anything?" Oppenheimer asked.

The warden's eyes tried to penetrate the gloom.

"No, Jake," he said, "I don't see anything."

"Well," the convict cried, "that's why I wanted you here. When they close the doors on us fellows in the condemned cells we're in the dark. Is that a square deal?"

The warden told him that when his reform plans went into effect the condemned men would not be overlooked.

Calls Patrons "Cheap Skates."

Chicago.—George A. Dortmund, who bought a five-cent theater and failed to make it pay, left this note when he killed himself: "To you all: Such a business—that theater. Loss \$1,100. You cheap skates."

Man Stricken Blind.

Clarkston, Wash.—Going to bed with sound eyesight and rising in the morning blind is the plight of Henry Jacobson, who has been working on the ranch of William Jones, a farmer, near Clarkston.

If you have young children you have perhaps noticed that disorders of the stomach are their most common ailment. To correct this you will find Chamberlain's Stomach and Liver Tablets excellent. They are easy and pleasant and mild to take, and mild and easy in effect. For sale by all dealers.

WILLIAM H. HILL, DETROIT.

Candidate for Congressman-at-Large, born in 1852 in Steuben County, N. Y.

After attending district school until fifteen years of age, he worked for his board and tuition at Cayuga Military School, Aurora, N. Y. He took care of horses and cows and did janitor work around the buildings. In vacation periods worked on farms, or did anything to earn an honest dollar. He was a student under Prof. Warren Hitley, later Judge Hitley of New York City.

After finishing his three years military course, he followed Horace Greeley's advice and went west to grow up with the country. Landing in Kalamazoo, he took the first thing offered and clerked in a dry goods store for two years. Then he fitted himself for the drug business, and traveled a number of years in that line. He moved to Detroit in 1885, where he has been manufacturing drug specialties and metallic furniture with marked success.

Mr. Hill has been a life-long Republican and has always been known as a Progressive. He was a staunch supporter of the late Mayor Plafiege at the time he made his fight for the Municipal Lighting System, which was successful. He was also a strong supporter of the Pingree plan for municipal ownership of street railways at the time he tried to take over the street car facilities for the benefit of the people, and still advocates public ownership.

Mr. Hill has always felt there should be some law whereby combinations of capital and great corporations can be controlled and believed that an industrial commission, should be appointed with full power to control all corporations engaged in interstate commerce, on a plan similar to that which now controls the national banks, and thereby give the small business men the same opportunity, under the laws, as the corporations.

BRINGING IT BACK.

Swellington—Do you ever have any doubts about your love for her?

Swellington—Without a doubt; but when it comes on I get down a stack of unpaid bills and look them over.

SMALL DOSES.

The Nurse—The Doctor just brought you this new baby brother.

Freddy—That kid is so small it must have been brought by a homeopathic doctor.

WANTED

50 YOUNG MEN

To learn Bicycle and Automobile Tire Building. Splendid shop conditions. Excellent opportunity for strong, willing young men to learn a good trade and at the same time earn good wages while learning. Address

Special rate of 50c for the remainder of the year for the Detroit Journal to people living outside of the delivery district. Come quick so as to get every paper up till January 1st.

Avalanche Office.

The reception which was held at the M. E. church in honor of Rev. and Mrs. V. J. Hufton was well attended. The evening was spent very pleasantly in music and singing. At 10 p. m. the ladies served light refreshments.

Notice is hereby given that the Board of Supervisors of Crawford county will be in session at the Court House in the village of Grayling on Monday, the 14th day of Oct., 1912.

JOHN J. NIMICKER, County Clerk.

A Mr. Holden, of Chicago, was held up a short time ago and very roughly handled by some highway men. He was formerly Alfred Sorenson's employer and is also well known by J. W. Sorenson. He is now in a hospital and unable to speak.

The Michigan Board of the Presbyterian church and the board of Alma college are going to hold exercises in honor of the twenty-fifth anniversary of the opening of Alma college, also the inauguration of Thomas C. Blaisdell as President of the Alma college, Alma, Michigan, Friday, Oct. 11.

Mr. Albert Palmer celebrated his 87th birthday at the home of his brother, O. Palmer, yesterday. Mr. Palmer has quite recovered from his recent illness and only for a little weakness of the muscles is feeling as well and cheerful as ever. He has been receiving congratulatory letters and post cards in great numbers for several days past. He has loving friends by the hundreds.

Mike Bremner was arrested by marshal Stanard last Monday for carrying concealed weapons. Although "Happy Mike" is a deputy sheriff, under the present law he is not permitted to carry weapons of any kind upon his person without first receiving a license therefor signed by the prosecuting attorney and the sheriff. Mr. Stanard had just been to the court house and obtained his license and knowing that Mike would be going there for the same purpose, he intercepted him, and asked to see his revolver, and upon delivery from one of his 10x20-inch pockets, Mike was promptly arrested and taken into the county clerk's office before Judge Mahon. He was caught with the goods upon his person and there was no alternative from the imposed sentence of buying the cigars for every one present. He did it gracefully.

Phone No. 5 for auto livery. H. A. Pond.

Lost—A black and white dog for right hand. Under please leave at this office.

Albert Shellenbarger and Verne Clark returned Saturday from a visit at West Branch.

Charles Waldron and family moved up to T. Town and are living in the house that James Olson just vacated.

Mr. and Mrs. Adam Gierke left for Bay City Monday morning on business, also to visit with relatives and friends.

A. J. Moore D. C., the chiropractor, Office at the residence of Waldemar Jorgenson. Consultation and analyzing free. 10-10-11

We are glad to learn that at last Mrs. Geo. Belmore has found her pocket book. It was found in the horse manger.

A pocket book was found containing a small sum of money, owner can have same by calling at this office and proving property.

There will be no preaching services Sunday morning and evening at the Presbyterian church, Sunday school and Christian Endeavor as usual.

We would like to receive your orders for hard coat if you want to be sure of getting a supply for next winter. Coal is scarce order at once.

8-11 SALLING HANSON CO.

Lost—Sunday, July 28, a jewel case containing rings and other jewelry on road between Beaver Creek and Grayling. \$300 reward offered.

E. R. DIETCH, Roscommon.

The Misses Irene and Hattie Balhoff, both nurses at Mercy hospital, Bay City, graduate from there the 15th of this month, having completed their training course. Their parents reside here.

It was stated in the paper last week that the resident hunters' license was \$5.00, which should have been \$1.50, also that the rabbit season opened Oct. 15 and continued until Nov. 30th which should be from Oct. 15 until Mar. 1 inclusive.

The ladies of the M. E. church will hold their annual fair and supper Nov. 21. They expect to have a good display of useful and fancy articles. Orders for comforters can be given at any time to the committee, Mesdames Nielsen and Herick.

One of the greatest surprises to the men of Grayling will be when they look at samples of men's clothing shown by Scott Loader. Choice of over 100 samples of suits ranging in price from \$11 to \$20. Made to your measure; fit guaranteed. Sept. 19-11

Mrs. Jeanette O'Hare, who visited for a few days in Detroit last week returned home Monday. She left for White Plains, New York, Wednesday to attend the wedding of a friend of hers, a Miss P. Holden, of that place. From there she will go back to Detroit.

A deed from the trustees of the David Ward estate has been filed for record, transferring the balance of the estate to the legal heirs. Chas. W. Ward receives 18-108 of the property, the other five children each receive 17-108. Fourteen grand children each receive 5-1512 of the estate. The estate consists of lands in Crawford, Otsego, Antrim, Charlevoix, Kalkaska, Bay and Manistee counties in this state. There is also other real estate located in other states. Much of the Ward lands have been sold of late, R. Hanson having purchased 3640 acres and Salling, Hanson Co. and R. Hanson & Sons about 520 acres and will have 25, 30 and 50 years in which to remove the timber. Some of this portion was purchased entirely land as well as timber.

There is a proposition on for the organization of an athletic association with a view of developing physical culture among our people. It is expected that a gymnasium building be erected and equipped at an expense of about \$1500 and shares be sold at \$10 each. If this matter goes through, and no doubt it will, golf links, and tennis courts will be instituted and for that purpose R. Hanson and R. D. Conine have offered to furnish the required land. These lands are located in the vicinity of the ball grounds and will make an ideal spot for the golf links and tennis courts and afford a splendid site for a gymnasium building. All these things go to make Grayling a better place to live in and a more contented and happy people.

We are known as a town of live ones, when we do things we do them right. People generally recognize Grayling as being a good place to go to and visit here are afforded every courtesy. Systematic physical training promotes health and happiness and this move is a good one in the right direction.

Man or boy wanted to pile wood. Phone or call at Avalanche office.

James Olson and family have moved down from T. Town and are living in the old Martin house.

Lost—A gold signet watch chain between Grayling and Portage. Finder please return to this office and receive reward.

The lumbering business is extremely busy at present, and orders coming in faster than they can be cared for. There has been no change in prices for some time, but if the present activities continue it is reported that rates will go up. Lumber hasn't been advanced in price in proportion to other things. Some commodities have advanced in price up to fifty per cent or more, while lumber has only advanced about fifteen per cent. Our local mills report big business done last month. The Salling, Hanson Co. report shipments of 2,814,543 feet of lumber in September, besides large quantities of poles, cord wood, slabs, bark, shingles and lath.

R. Hanson & Sons report shipments of 753,356 feet of lumber in September, besides wood, bark and other products.

The final completion of the organization of Grayling Lodge, Order of the Moose, occurred Friday night. There was a large attendance, and election of officers. They are as follows:

Ex-Dictator—Hans Petersen

Dictator—H. L. Chamberlain

Vice Dictator—Wm. Cody

Secretary—R. E. Johnson

Treasurer—Herluf Sorenson

Prelate—Dr. Merriman

Lodge Guard—Jas. W. Hanson

Outer Guard—Carl Dawson

Master at Arms—Frank Parks

Next week, Friday Oct. 18, the degree team of Ludington will be here to install the officers elected. This meeting will be public to all members and their families and the public in general. There will be a big banquet to which the members, their families and friends are invited. The Moose band of Ludington will also be here upon this occasion.

Major M. J. Phillips, of Owosso, who was formerly a Grayling man, and a son-in-law of Chas. Robinson, has written a story, giving it the name of "Bunty Prescott at Englishman's Camp." It is a story written principally for boys, and is very charming indeed. To the people in Michigan, and particularly in Crawford county, it will be received with great pleasure, for the story of the story is laid in Detroit, Grayling and the North Branch of the AuSable river. Bunty Prescott came to this region with his father in 1897 in search of health. He was a young lad out of the handsome Forest Avenue school at Detroit, where his father was the principal. At the instruction of the family physician they spent nearly a year in the woods of this county. It is a clean inspiring narrative and should be hailed with great pleasure by those advanced in old age as well as boys. We predict for it a ready sale and through these columns extend hearty congratulations to its author. Its nicely published in a book of 280 pages by the Reilly & Britton Co. of Chicago.

Additional local news on opposite page.

DOAN'S KIDNEY PILLS

FOSTER-MILBURN CO., BUFFALO, N. Y.

RECLAIMING CUT HARDWOOD TIMBER LAND

By R. S. SHAW,
Dean and Director, Michigan Agricultural College

Such Land Could Easily Be Made to Produce More Pasture by Scattering Grass Seed and Piling Loose Logs.

(If conditions are suitable) and some orchard grass. This mixture should be sown broadcast over logs and stumps, covering the entire area. If the season is moderately wet and the seedling is made early no attempt to cover may be necessary, but if conditions demand it the brush drag is the only thing that will avail, except where the clearing has been clean enough to permit of the use of an A-shaped drag.

The following season after the grass and clover has become established the area should be pastured by sheep, which will not only keep the grass down, but will destroy all sprouts, weeds, etc., much more effectively than cattle or horses. Under these conditions, with all attempts at growth completely checked, the hardwood stumps will rot out in a few years, leaving the land in condition ready for any cultivation. A good seedling is a very successful one, and a good percentage of timothy is particularly desirable.

TESTING HOGS FOR TUBERCULOSIS

Tuberculin Test for Hogs: Intradermal Method, Showing Enlargement at Seat of Inoculation Due to Positive Reaction.

(By JOHN R. MOHLER)

Tuberculosis in the human family has been lessening materially during the past 15 years, but reports from the various meat-packing centers of the country fail to show the same encouraging condition regarding tuberculosis in hogs during the same space of time. It must be admitted that reports have come from several localities during the past four years showing a decrease in the number of tuberculous swine sent to market, but a review of the collective records of the country at large shows an increase rather than a decrease in the number of swine affected by this disease.

The small amount of money required to begin hog-raising and the quick returns on the capital invested make this industry an attractive one to the small farmer. The hog will make a pound of gain on less feed than most live stock, and will probably utilize waste food products of every variety if properly prepared for him. As tuberculosis in this species is chiefly acquired by indigestion, the significance of the latter statement is obvious.

The vitality of hogs or their powers of resistance to disease are measured by factors in the unsatisfactory conditions which frequently obtain in hog raising, namely, the forced feeding for fattening and the small feeding pens in vogue in certain districts. When the enormous growth of a hog is considered, when it is realized that in the short space of 8 or 10 months its development is frequently 250 to 300 pounds—a proportionate increase of weight unknown to any other species of domestic animals—the great bodily changes which must necessarily occur can be appreciated. Such rapid development is very likely to take place at the expense of the disease-resisting powers of the animal.

When tuberculosis results, the lesions usually observed are discrete and of a chronic type, at times retrogressive and at other times slowly progressive, as manifested by calcareous deposits and fibrous encapsulation. It is not infrequent, however, that a more extensive and spreading disease is seen, and the lesions indicate a severe infection and rapid generalization of the bacilli, which in these animals may quickly follow the initial attack. And whether the disease assumes an acute, sub-acute, or chronic type, tuberculous growths may soon be found attacking lymph glands in widely separated parts of the body.

The intradermal method of testing hogs for tuberculosis has given excellent results. Two drops of tuberculin prepared by evaporating away two-thirds of the volume of the tuberculin previously prepared for the subcutaneous tuberculin testing of cattle, is injected into the dermal layer of the skin near the base of one of the ears of the hog. If the animal is not affected, no change in the appearance of the ear will result, but a positive reaction will at the end of 48 hours cause a swelling near the seat of their injection. This edematous enlargement may remain visible for 10 to 12 days after the injection in case the animal is affected with tuberculosis.

Women

From Forty-Five to Fifty Are Much Benefited by Lydia E. Pinkham's Vegetable Compound.

The "change of life" is a most critical period in a woman's existence, and the anxiety felt by women as it draws near is not without reason.

When her system is in a deformed condition, she may be predisposed to apoplexy, or congestion of some organ. At this time, also, cancers and tumors are more liable to form and begin their destructive work.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dreads of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and iniquity, and dizziness, are promptly heeded by intelligent women who are approaching the period in life when woman's great change may be expected.

These symptoms are calls from nature for help. The nerves are crying out for assistance and the cry should be heard in time.

Lydia E. Pinkham's Vegetable Compound is prepared to meet the needs of women's system at this trying period of her life. It invigorates and strengthens the female organism and builds up the weakened nervous system. It has carried many women safely through this crisis.

Mrs. Estella Gillispie

ONE CASE OUT OF MANY TO PROVE OUR CLAIMS.

St. Anne, Ill. "I was passing through the change of life and was a perfect wreck from female troubles. I had a displacement and bearing down pains, weak fainting spells, dizziness, then numb and cold feelings. Sometimes my feet and limbs were swollen. I was irregular and had so much backache and headache, was nervous, irritable and was despondent. Sometimes my appetite was good but more often it was not. My husband troubled me at times and I could walk only a short distance.

"I saw your advertisement in a paper and took Lydia E. Pinkham's Vegetable Compound, and I was helped from the first. At the end of two months the swelling had gone down, I was relieved of pain, and could walk with ease. I continued with the medicine and now I do almost all my housework. I know your medicine has saved me from the grave and I am willing for you to publish anything I write to you, for the good of others."—Mrs. ESTELLA GILLISPIE, R.F.D. No. 4, Box 34, St. Anne, Illinois.

THE GREATEST WOMAN

Who was or is the greatest woman in all history? Two hundred teachers answered this question and with enthusiasm and unanimity the judges awarded the prize to the one who made this reply: "The wife of the farmer of moderate means who does her own cooking, washing, ironing, sewing, brings up a family of boys and girls to be useful members of society, and finds time for intellectual improvement."

BREAKING OUT ON LEG

Hilltop, Kan. "About two years ago I began to notice a breaking out on my leg. At first it was very small, but soon it began to spread until it formed large blotches. The itching was terrible and almost constant. Many nights I could not sleep at all. After scratching it to relieve the itching it would burn dreadfully. Then I thought I could not get it any more. I tried all kinds of salves and ointments, but found no relief. Some salves seemed to make it worse until there were ugly sores, which would break open and run.

"One day I saw an advertisement of Cuticura Remedies. I got a sample of the Cuticura Soap and Cuticura Ointment and began by washing the sores with the Cuticura Soap, then applying the Cuticura Ointment twice a day. I noticed a change and got more Cuticura Soap and Ointment and in a few weeks I was cured. It has healed so nicely that no scars remain." (Signed) Mrs. Anna A. Low, Dec. 17, 1911.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston." Adv.

It is the things that are possible, not probable, that keep some people from being happy.

Significant.

"He proposed to her in a canoe." "Did she accept him?" "I presume so. The canoe capsized."

Vegetable Fiber for Shoes.

A Haverhill (Mass.) shoemaker has obtained patents giving him the right to make vamp and tops of vegetable fiber which he has invented and perfected to be used in the manufacture of shoes. A vast mass of shoes have been made of this material, which appears to be a good substitute for leather. The fiber is said to be particularly adaptable for warm weather wear because being of a woven material, it can penetrate the vamp and top. The inventor also claims that a shoe made of this material is waterproof.

He Knew.

"Where there's a will there's a way," avers Taylor Holmes, appearing in The Million. "The way, however, rather as in the case of a certain pickpocket, who was convicted and promptly fined."

"The lawyer of the pickpocket took the fine imposed upon his client very much to heart."

"Twenty-five dollars!" he expostulated. "Your honor, where is this poor, unfortunate man to get \$25?"

"His honor did not know, or if he did he refrained from saying so, but the prisoner was less discreet."

"Just let me out of here for ten or fifteen minutes," he said, "and I'll show you!"—Young's Magazine.

IMPROVING PIG CROP BY JUDICIOUS FEEDS

More Attention Given by Farmers to Rations and Care in Order to Secure Profit.

(By R. G. WEATHERSTONE)

Many farmers have started out this year with the intention of doing better by their crop of pigs than they have in the past. By doing better, I mean giving closer attention to the feed problem, and the care problem, so that the pigs when mature will have made a favorable growth at a low cost, and at the same time have developed strong frames, especially in the case of those pigs which are intended to be kept for breeding purposes.

It will be well for every man who desires to bring his pigs through the season in good form and condition to calculate to supply some of those foods which are known to have a favorable influence on the development of the framework of the pig.

It is needless to say that corn alone will not serve the purpose. While it is true that corn in conjunction with good pasture makes a diet for the growing pig which can hardly be improved on, it also often happens that the pasture contains little to attract the pig.

In that case they are sure to lie around the yards and start themselves with grass in preference to seeking the grass and exercise in conjunction, which is so essential to the health and thrift of the animal.

The best bone building foods are those rich in protein and mineral matter. Skim milk perhaps stands at the head of the list, and it will pay to lay in some sawdust, shorts and possibly some bone meal as well as some pure mineral matter.

It cannot be expected, however, that the feeding of foods bearing large amounts of protein and mineral matter, such as have been mentioned, will change the conformation of any part of the skeleton or, for example, make a pig stand straight.

This improvement will have to be made through selection, using no male or female that is faulty.

It might, too, be urged that if careful selection were practiced it would be unnecessary to consider the diet, since strong-toned breeding stock would naturally impress these good points on their progeny.

On the contrary, it may be said that men have been trying for years to breed poor hogs out of their herds without giving attention to a balanced ration problem, and they are practically where they started.

We generally find that when men feed little or no grain and do not care to hasten the growth of their pigs, the quality of the bone is generally very satisfactory.

Damage by Queer Fly.

The appearance of a queer, green fly on the corn in some parts of Kansas caused some damage, but it appeared too late to seriously affect the crop. The insect will be studied by the state authorities, and means taken to prevent its ravages next year.

No Best Breed.

What breed? Every breed has good and poor individuals. Success or failure depends upon the man, not upon the breed. It is well for the farmer to select the breed that he likes best.

MAINE HEN HOUSE IS ADVANTAGEOUS

Feature of Structure Is Closet Form for Protection in Cold Weather.

In the curtain-front type of poultry house used at the Maine experiment station a feature of the original plan on which considerable stress was laid was the canvas curtain front of the roosts. This curtain, together with the back wall of the house and the dropping board under the roost, formed a closet in which the birds were shut up at night during cold weather.

When the curtain-front house was first devised, it was thought essential to provide such a closet to conserve the body heat of the birds during the cold nights when the temperature might be well below zero. Experience has shown, however, that this was a mistake. Actual test shows that the roosting closet is of no advantage, even in such a severe climate as that of Orono.

On the contrary, the birds certainly thrive better without the roost curtain than with it. It has been a general observation among users of the curtain-front type of house that when the roost curtains are used the birds are particularly susceptible to colds. It is not hard to understand why this should be so. The air in the roosting closet when it is opened in the morning is plainly bad. The fact that it is warm in no way offsets physiologically the evils of its lack of oxygen and excess of carbon dioxide, ammonia vapors, and other exhalations from the bodies of the birds.

For some time past it has been felt that the roosting closet was at least unnecessary, if not in fact a positive evil. Consequently the time of beginning to close the roost curtain in the fall has been each year longer delayed. Finally, in the fall of 1910, it was decided not to use these curtains at all during the winter. Consequently they were taken out of the house, or applied to the roof, as the case might be. The winter of 1910-11 was a severe one. On several occasions the temperature dropped to 30 degrees below zero. During the winter the mortality was exceptionally low, and the egg production exceptionally high.

In view of this experience the station has decided to discontinue the use of the roost curtain. It would seem to be generally undesirable, or at least unnecessary.

Cherries Stand Age Well.

The fourth year after a cherry orchard is planted it will begin to bear, and by the time the orchard is ten to twelve years old it is safe to say we can pick from three to four crates of cherries of each tree. For the next ten or twelve years they are equal to a gold mine.

Appetite of Toad.

The prodigious appetite of the toad is advocated for the euro cure for the scourge of grasshoppers in the far west. A Scotchman near Greeley, Colo., proposes to start a toad farm on his ranch and sell the products. He asserts this is a common practice in Europe.

Good Cow Stable.

Four things are of prime importance in planning to build a cow stable—sunlight, pure air, light dry floors, and the comfort of the animals.

Onion Culture

The essential requirements of a soil upon which to grow onions profitably are a high state of fertility, good mechanical conditions in order that the crop may be easily worked, sufficient drainage, and freedom from weeds. If the soil has the proper mechanical properties, that is, if it contains sufficient sand and humus to be easily worked, is retentive of moisture and free from weeds, and is capable of drainage, all other requirements can be met.

The three types of soil being most extensively planted to onions in this country are alluvial loams, sandy loams and muck and peat soils. Clay soils, which bake and run together after rains, are injurious to the seedling and do not permit proper early cultivation. Well drained sandy loams are especially adapted to onions, but require heavy applications of fertilizers, lime, and the growth of leguminous crops to keep them in good condition. Muck soils are among the best for onions when fertilized with manure and potash, and made free from weeds.

The onion belongs to that class of crops which gives best results under very intensive culture and the greater yields are secured when a moderate acreage is planted and the work conducted in a most thorough manner.

A general rule onions should follow some crop that has been kept under the hoe and free from weeds the previous season. Corn, beans and potatoes are suitable crops with which to precede onions.

Onions should not be planted on the same piece of land year after year, and some system of crop rotation should be maintained. Care should be taken, however, to use crops in the rotation that will not be exhaustive of the high fertility necessary in the onion land. During the years when the land is not devoted to onions it can be planted to some truck crop that will give a return that will justify the application of large quantities of fertilizers of better for a leguminous crop to be turned under as a green manure. Continuous cropping with onions will cause the land to become infested with both disease and insect enemies, that will sooner or later injure the crop to such an extent as to render it unprofitable.

The methods of preparing the soil will depend somewhat upon its character, but tillage must be continued until the soil is smooth and mellow to the depth of four or five inches. It is essential that the fertilizers be well mixed with the soil.

There is perhaps no fertilizer so well adapted to the production of onions as the fall-sown clover.

Even last year there was good success with fall-sown clover and the season was none too favorable. There are a great many enemies to spring-sown clover, weeds, grasses and so thick stands of grain, which fall seedling escapes.

When a spring seeding has been sown, the land should at once be disked and seeded the clover on a fine seed bed, with a firm subsoil. Even if it is very dry the chances are there will come enough fall rain for the clover.

Storing Eggs.

A storage place for eggs should be free from any bad odors.

There is no record of anyone being injured later on.

Fall-Sown Alfalfa Best.

The question as to whether alfalfa should be seeded in the spring or in the fall is one on which there is a great difference of opinion among farmers. Investigation by the farm crops department of the Iowa State college has shown that fall seeding gives the best success. Last spring reports were received from 98 farmers giving their method of seeding alfalfa. Of this number, 56 per cent. sowed their alfalfa in the fall and 44 per cent. in the spring.

The fall seeding seemed to give the best success, 78 per cent. of those who seeded in the fall reported success, 14 per cent. partial success, and only 8 per cent. reported failure, while with the spring seeding only 67 per cent. reported success and 28 per cent. reported failure.

Effects of Heavy Pruning.

Heavy pruning tends to increase the wood growth and stimulate the vigor of fruit trees.

PIT SILOS ARE TROUBLESOME

More Expensive Tanks Are More to Be Desired, But Those Built in Ground Answer Purpose.

Pit silos will also stand up well in a stiff clay or clay loam, and they must be protected from surface water and be in a dry situation. A good deal of work is entailed by digging, but a team should be used to hoist the dirt out.

The pit silo has been condemned on account of the labor involved in taking out silage, but a horse hoist can be used and the load tripped onto an overhead carrier and so conveyed to the cattle, which is not so easy where the silage has first to be thrown down.

No doubt expensive silos are, on the whole, more satisfactory, but it is the case of a pit silo or none, and conditions are favorable, the pit silo will serve. There is some danger of gas collecting in the pit, especially at filling time. This, however, can be detected by lowering a lantern, and

THE FOOD Tells Its Own Story

It's one dish that a good many thousand people relish greatly for breakfast, lunch or supper.

Post Toasties

Crisped wafers of toasted Indian Corn—a dainty and most delightful dish.

Try with cream and sugar.

W.L. DOUGLAS SHOES

\$3.00 \$3.50 \$4.00 \$4.50 AND \$5.00

FOR MEN AND WOMEN

Says wear W. L. Douglas shoes, because one pair will positively outwear two pairs of ordinary shoes, same as the man's shoes.

W. L. Douglas makes and sells more \$3.00, \$3.50 and \$4.00 shoes than any other manufacturer in the world.

THE STANDARD OF QUALITY FOR OVER 30 YEARS.

The workmanship which has made W. L. Douglas shoes famous the world over is maintained in every pair.

Ask your dealer to show you W. L. Douglas latest fashions for fall and winter wear, notice the short stamps which make the foot look smaller, points in a shoe particularly desired by young men. Also the conservative styles which have made W. L. Douglas shoes a household word everywhere.

Get it! Get it! Get it! W. L. Douglas large factories at Brockton, Mass., and see for yourself how carefully W. L. Douglas shoes are made, you would then understand why they are warranted to fit better, look better, hold their shape and wear longer than any other make for the price.

CAUTION—To protect you against inferior shoes, W. L. Douglas stamps his name on the bottom of the shoe. Beware of cheap imitations. W. L. Douglas shoes are sold in 75 cent store and open shoe stores everywhere. To make sure you get the real W. L. Douglas shoes, if your dealer cannot supply you, write direct to factory for catalog showing how to order by mail. Shoes sent everywhere, delivery charges prepaid. W. L. Douglas, Brockton, Mass.

IHC Oil and Gas Engine

Costs You Nothing When Idle—Almost Nothing When It Runs

WHEN an IHC engine is at work, it is the cheapest dependable power you can use; when not working it costs you nothing. It will work just as hard at the close of the day as at the start—will work overtime or all night just as readily. It is ready to work whenever you need it; always reliable and satisfactory. You can use an

to pump water, to run the wood saw, cream separator, churn, grindstone, washing machine, feed grinder, corn husker and shredder, ensilage cutter, or any other farm machine to which power can be applied.

IHC oil and gas engines are constructed of the best materials; built by men who know what a good engine must do; thoroughly tested before leaving the factory.

They are made in all sizes from 1 to 50-horse power; in all styles—vertical and horizontal, air and water cooled, portable, stationary and mounted on skids, to operate on gas, gasoline, naphtha, kerosene, distillate or alcohol. Kerosene-gasoline tractors, 12 to 45-horse power.

Ask the IHC local dealer to show you an IHC engine and explain each part, or write for catalogue and full information.

International Harvester Company of America
Detroit

IHC Service Bureau

The purpose of this Bureau is to furnish, free of charge to all, the best information obtainable on better farming, if you have any worthy questions concerning soil, crops, land drainage, irrigation, fertilizers, etc., make your inquiries specific and send them to IHC Service Bureau, Harvester Building, Chicago, U.S.A.

Social Forms and Entertainment

From a Mere Man.
Will you kindly advise me the duties of the "best man" at a home wedding? I am to wear a dress suit. Will you state the accessories that go with it?
Harry.

The best man is supposed to be the moral support and adviser of the bridegroom; he sees to the details, such as having the necessary credentials at hand required by the state and clergyman, pays the latter, stands by the bridegroom and enters with him; he takes the maid of honor (if there is one) under his especial protection after the ceremony. In fact, he is supposed to be the official third for the bridegroom. Paid suits and cuff links, white bow tie, white kid gloves and white waistcoat with patent-leather pumps, go with full evening dress.

The Proper Thing to Do.
Being in doubt I come to your helpful department for information. Is it necessary to write anything upon the card that is sent with a wedding gift? If so, what? Must an invitation to a wedding be acknowledged?
A. G.

It is not necessary to say anything on the card; on the other hand, it is perfectly proper to do so. The words "Since good wishes" or "Hearty congratulations" seem to bring the donor into closer touch with the recipient, but as with all things, this is a matter of personal feeling. Dame Curtis has said time and again that an invitation to a home wedding demanded an immediate "acceptance" or "refusal" the same as for any social function at a home. A wedding at the church does not require a reply.

Fift for a Man.
Will you name a few articles that a young woman may with propriety give to a man who is about to leave for a distant city to study law?
Sweet Sixteen.

It is supposed that the man in question will have a "den" of some description and there are a number of things to provide which are useful as well as ornamental. For instance, a bronze incense burner to hold cigar ashes, a stunning metal desk set, a brass candlestick with a bayberry candle, a metal letter holder, book ends of wood or metal, a framed sentiment, etc. In fact, there is almost no limit to acceptable objects outside of the expensive pillow, of which, like teenagers for a girl, "there can never be too many."

Where to Send the Present.
I have received so much help by reading your page that I come to you now.

My brother will marry in the fall, as he will go to our home and I am not able to go to the wedding shall I send the present home or give it to them when they come back to the city?
Engle.

Seems to me as long as the bride couple are to make their home in the same town that I would want to give them your gift when they arrive, as it will save them packing it and bringing back with them. However, it will be perfectly proper to send it to the bride before the wedding if you prefer.

Send Self-Addressed Stamped Envelope.
I find your department very helpful. I would like to know of a book of nice parlor games that could be played at house parties for boys and girls.

A Constant Reader.
There are several books of games and amusements intended to help those who entertain and who have little time on thought to give to the matter. Just send me a self-addressed envelope in care of the paper (stamped) and I will send you the names and prices of three or four.

Card to Send With Flowers.
Will you please tell me what to write on a card to send with flowers when a death occurs?
Anxious to Know.

Your card if sent from the florist with the flowers which you order by telephone or mail need have nothing upon it beside your name, but if you wish you may send a card which has pencilled upon it "With deep sympathy" or "Accept our sincere sympathy in this your great sorrow."

Reply E. L. O.
A girl only twelve years old is entirely too young to have a beau or go to dances. Perhaps young people think I am too strict, but remember I have been over the road and know and a girl loses all her freshness and attractiveness by going out when she should be in bed by eight o'clock.
MME. MERRI.

Fortune in Faces.
There is often much truth in saying "Her face is her fortune" but it is never said where where plump, skin eruptions, blotches, or other blemishes disfigure it. Impure blood is back of them all, and shows the need of

Dr. King's New Life Pills.
They promote health and beauty. Try them. 25 cents at A. M. Lewis and Co.

BIG PRIZE LIST OFFERED FOR GROWERS AT APPLE SHOW

More Than \$1000 in Cash Premiums set up, Besides Other Awards of Valuable Merchandise. All Exhibits Must Have Been Grown in Michigan Orchards. No Room For Western Growers. Premium List Is Below.

Every apple grower in Michigan may enter his exhibits and compete for prizes at the second annual Michigan Land and Apple Show, to be held in the Coliseum, Grand Rapids, November 12-16.

The provisions governing the exhibit make it possible for any grower to compete on a par with any other grower in the state. Individual exhibits are the ones that are desired, and they are of what the show will principally consist.

Growers all over the state are notifying the offices of the Michigan Land and Apple Show of their intention of exhibiting, are inquiring about the rules of the show, and requesting blank exhibit forms. The growers are taking up the show with earnestness and enthusiasm, for they understand how great the benefit will be to them.

All Growers on a Par
The idea of individual exhibits appeals to them too. Here each grower is on a par with every other, and the exhibits will be submitted to the honest judgement of capable jurors.

condition and packing to govern award; 1st prize \$15.00, 2nd prize \$10.00, 3rd prize \$5.00.

Most attractive display of Michigan fruits and products, sign, quantity, quality, perfection and variety of fruits to govern award; 1st prize \$25.00, 2nd prize \$15.00, 3rd prize \$10.00.

Best exhibit of three bushel-boxes of market apples—three varieties—quality, color, size, uniformity, condition and packing to govern award; 1st prize \$15.00, 2nd prize \$10.00, 3rd prize \$5.00.

Best exhibit of three barrels of market apples, and three varieties quality, color, size, uniformity, condition and packing to govern award; 1st prize \$15.00, 2nd prize \$10.00, 3rd prize \$5.00.

Best single plate of five apples of any of the following varieties: Chicago, Oldenburg, Fameuse, McIntosh, Maiden Blush, Shinarump, Alexander, Baldwin, Ben Davis, Grimes Golden, Hubbardston, Jonathan, King, Mann, Newton, Pippin, Northern Spy, Red Canada, Rhode Island, Greening, Russett (Golden), Sutton Beauty,

Swart, Spitzenburg, Tolman Sweet, Wagner, Wenzell, Winter Banana, Seckel No-Further, or any other valuable variety. For each variety, 1st prize \$10.00, 2nd prize \$5.00, 3rd prize \$2.50.

Best bushel-box of any of the above varieties; 1st prize \$3.00, 2nd prize \$2.00, 3rd prize \$1.00.

Best barrel of any of the above varieties; 1st prize \$5.00, 2nd prize \$3.00, 3rd prize \$1.00.

Ladies special—for the most attractive display of the by-products of the apple, such as jellies, jams, marmalades, etc., made from apples; 1st prize \$10.00, 2nd prize \$5.00, 3rd prize \$2.50.

Ladies Special—for the best apple pie; 1st prize \$10.00, 2nd prize \$5.00, 3rd prize \$2.50.

Best exhibit of Michigan Peas; 1st prize \$10.00, 2nd prize \$5.00, 3rd prize \$2.50.

Five Box exhibit—First Premium \$35.00, Second Premium \$20.00, Third Premium \$15.00. Limited to the following five commercial varieties: Baldwin, Fameuse (Snow), Grimes Golden, Northern Spy, Rhode Island Greening.

Three prizes will be offered for each one of the five above mentioned varieties of apples and the exhibitor may enter any or all of them with the distinct understanding that the apples have been grown by him in his own orchard. In this class an entrance fee of one dollar (\$1.00) will be charged.

One Box Exhibit—First Premium \$10.00, Second Premium \$5.00, Third Premium \$2.50.

Limited to the following varieties: Baldwin, Fameuse (Snow), Grimes Golden, Northern Spy, Rhode Island Greening, Winter Banana. Three prizes will be offered for each variety. Any one of the above mentioned ten commercial varieties of apples may be entered by each exhibitor provided the apples have been grown by him in his own orchard.

The aggregate of cash prizes offered in the above list is over \$1,200, with a possibility of the amount being much greater. By a study of the list it will be seen that the prizes in almost every instance apply to each variety named. In the five-box exhibit, for instance, the aggregate of the money prize offered is \$375, as the exhibitor may enter five boxes of each of the five varieties. It would be possible for an exhibitor to take down \$175 in first prizes in this class, \$125 in second prizes, or \$75 in third prizes. In addition there will be a large list of merchandise prizes offered, in which the exhibitors in the different classes mentioned in the above list will share.

Pedagogy is the most neglected of all sciences. Before there are good pupils there must be good teachers. If a school system turns out inefficient, stupid graduates and that same system is responsible for the turning out of the teachers—how can the latter be anything except stupid and inefficient? The pedagogues teach the pupils—but who teaches the pedagogues? It is all a vicious circle.

The teaching faculty is a distinct faculty. A man may know all there is to know about chemistry, say, and yet not be able to impart a definite knowledge of the elementary principles of chemistry to a class. The school of the future must aim at conferring on the pupil the maximum of happiness. In happiness only is there real growth.

Teachers Must Be Taught Their Business

By DR. WILLIAM OSWALD, Director of Schools, Kemptville, Ontario

Saved by His Wife.
She was a wise woman who knows just what to do when her husband's life is in danger, but Mrs. R. J. Flint of Brantree, Vt., is of that kind. "She insisted on my using Dr. King's New Discovery," writes Mr. F. "for a dreadful cough, when I was so weak my friends thought I had only a short time to live, and it completely cured me." A quick cure for coughs and colds, its a most safe and reliable medicine for any throat and lung troubles: grip, bronchitis, croup, whooping-cough, quinsy, tonsillitis, hemorrhages. A trial bottle will convince you. 50 cents and \$1.00. Guarantee by A. M. Lewis & Co.

J. W. Copeland, of Dayton, Ohio, purchased a bottle of Chamberlain's Cough Remedy for his boy who had a cold, and before the bottle was all used the boy's cold was gone. Is that not better than to pay a five dollar doctor's bill? For sale by all dealers.

Crab That Climbs Trees.
"As awkward as a crab," does not apply on some of the South Sea Islands, for a crab is found there that not only runs as fast as an average man, but climbs trees with the ease of a schoolboy.

Sick headache is caused by a disordered stomach. Take Chamberlain's Tablets and correct that and the headache will disappear. For sale by all dealers.

Probate Notice

STATE OF MICHIGAN
The Probate Court for the County of Crawford.

At a session of said court, held at the probate office in the village of Grayling, in said county, on the 14th day of September, A. D., 1912.

Present: Hon. Wellington Batterson, Judge of Probate.

In the matter of the estate of Lydia Burkhardt deceased.

George Burkhardt, husband of said deceased, having filed in said court his petition, praying that the administration of said estate be granted to George Burkhardt or to some other suitable person.

It is ordered, that the 10th day of October, A. D., 1912, at 10 o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition.

It is further ordered, that public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the CRAWFORD AVANCE, a newspaper printed and circulated in said county.

WELINGTON BATTESSON, Judge of Probate.

(A true copy.)

WELINGTON BATTESSON, Judge of Probate, sep19-3w

SAN JAK

The Greatest Cure and Preventive for Bright's Disease.

No one ever cured kidney trouble with a pill, powder, tablet or mineral water. The reason is there is nothing in them by which you can force the drug to the vital point and neutralize the poison in the tissues and reduce the inflammation or granulation of the kidneys. (These are statistics by the most eminent men in the faculty.)

Symptoms of kidney trouble—swelling under the eyes, grayish white or wax color of the skin denotes granular diseases of the kidneys. The cure is SAN-JAK. The reason is clear. SAN-JAK neutralizes poison in the tissue of the vital organs of the body, clearing away inflammation and catching in all parts of the digestive tract and vital organs. SAN-JAK is the only preparation allowing a normal expansion of the kidneys at all times, by which action the kidneys are enabled to absorb alkaline sulphates, which are the decomposed products of the bowels, and eliminate them. Otherwise, in renal weakness, this condition is the cause of ill health and Bright's with rheumatism.

SAN-JAK will not harm a well person, and for the weak ones its faithful use means perfect health and strength for young and old.

Man should die of old age, not disease.

San-Jak will keep your blood as pure as a lily. We sell San-Jak and will guarantee satisfaction—or return the price of one bottle, \$1.00.
